

## Rental Insurance Requirements

At The Other Productions, we require renters to provide an insurance certificate that meets our specific requirements for full coverage when renting equipment. Here are the key insurance requirements:

1. **General Liability:** Renters must have liability insurance with a minimum coverage of **\$500,000**, and **The Other Productions** must be named as "**Additional Insured**" under Special Provisions.
2. **Equipment Coverage:** Renters must have equipment coverage that includes all equipment being rented, not just from The Other Productions. The total amount of rented equipment should not exceed the limit outlined in the policy, and The Other Productions must be listed as "Loss Payee" under Special Provisions.
3. "**Unattended Vehicle Theft Exclusion**" Not Accepted: Renters must confirm with their insurance provider that they will be covered in case of equipment loss, theft, or damage while in an unattended vehicle.
4. The insurance policy must be valid for the entire duration of the rental, including the pickup and return dates.
5. The coverage should include transit, covering the equipment during transportation.
6. The coverage should be written on a Worldwide Basis. If not, please specify the coverage location.
7. The coverage should be written on a replacement cost basis, ensuring full reimbursement for any covered losses.
8. The coverage should be all-risk, providing comprehensive protection.

As an alternative to insurance, The Other Productions may accept credit card holds for small, short-term rentals. This option is available to customers whose credit cards have sufficient available funds to cover the full replacement cost of the equipment. Please contact [rentals@theotherproductions.com](mailto:rentals@theotherproductions.com) for further information on this insurance method.
